

We are having some technical problems with our live stream. We are working on this and hope to have the stream up and working soon. The stream will be new and improved with a 5th stereo channel that will make the streaming experience even better. Thank you for your patience as improve our stream offerings for our parish and our community.

We are also looking for a volunteer or volunteers to help us stream live via Facebook Live. If you would be interested in learning more about how you can help in this way please contact Fr. Gregory: ogrisha@stvladimiraami.org.
