

How to Clean St. Vladimir's Pergo Floor

1. Mop the floor with the electrostatic mop head (zip-line mop system in women's rest room)
2. Clean wax off with lighter fluid. **DO NOT SCRAPE WAX OFF OF FLOOR.** We have lighter fluid under sink. **ALL CANDLES AND OPEN FLAMES SHOULD BE EXTINGUISHED.**
3. Use the gallon jug under the kitchen counter of "Squeaky": 8 oz of Squeaky to 24 oz of water (1 to4 ratio) in special spray bottle.
4. Spray cleaning solution onto floor and mop using the looped mop head on the zip-line handle (mop heads attach via Velcro).
5. When the mop drags along floor, spray some solution onto mop head.
6. The floor should not be saturated with water: **NEVER EVER UNDER ANY CIRCUMSTANCES.**

OTHER CLEANING QUESTIONS? See the black 3-ring binder in the kitchen.
